Priya Sharma
New York, NY | priya.sharma.ml@email.com | github.com/priyasharma-data

PROFESSIONAL SUMMARY:
Analytical Data Scientist and Machine Learning Engineer with 3+ years of expertise designing predictive models, deep learning architectures, and statistical analytics pipelines. Proficient in Python, PyTorch, TensorFlow, Pandas, NumPy, and SQL.

TECHNICAL SKILLS:
- Programming Languages: Python, SQL, R, Bash
- AI & Data Science: Machine Learning, Deep Learning, Natural Language Processing (NLP), Computer Vision, Data Science, Data Analysis
- Libraries & Frameworks: PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, OpenCV, Keras
- Databases & Tools: PostgreSQL, MongoDB, Power BI, Tableau, Excel
- Cloud & DevOps: Docker, AWS, Git, Linux

WORK EXPERIENCE:
Machine Learning Engineer | DataCore Insights (2022 - Present)
- Developed and trained deep learning NLP classifiers in PyTorch, achieving 94% F1-score on customer sentiment benchmarks.
- Built automated data analysis pipelines utilizing Pandas and NumPy to process 5M+ daily transactions.
- Designed enterprise business intelligence dashboards in Tableau and Power BI for executive leadership.
- Containerized model training workflows with Docker and deployed inference microservices on AWS EC2.

Data Analyst | Metrics Analytics Group (2021 - 2022)
- Wrote complex SQL queries across PostgreSQL databases to extract behavioral metrics.
- Constructed regression and clustering models using Scikit-learn for customer segmentation.
- Generated comprehensive exploratory data reports in Excel and Python.

PROJECTS:
- Medical Imaging Segmentation: Implemented convolutional neural network in TensorFlow and OpenCV for radiographic anomaly detection.
- Financial Forecasting Pipeline: Developed end-to-end time series predictor using Python, Pandas, and Scikit-learn.

EDUCATION:
Master of Science in Data Science | Global Tech Institute (2021)
Bachelor of Technology in Information Technology | National University (2019)
